For cases where Total Amount Due exceeds Credit Limit, account overlimit amount (Total Amount due – Credit Limit) is greater than the Computed MAD, then MAD = Overlimit Amount.

Any unpaid Minimum Amount Due (MAD) from previous statements will be added to the current statement's MAD.

In cases where the Total Amount Due (TAD) is INR 200 or less, the Minimum Amount Due (MAD) will be equal to the TAD.

Finance charges apply if the outstanding balance is not paid in full by the Payment Due Date. For cash advances, finance charges are applicable from the date of transaction until full repayment. If the Cardholder opts for the revolving credit facility and pays less than the TAD, finance charges will apply to the entire outstanding amount (excluding charges). All new transactions will also attract finance charges from the date of transaction, until the previous outstanding balance is paid in full by the due date. In the Oct'25 MAD calculation, Previous months outstanding Fees and Charges (if any) will be also included.
